Web Development Experience

General Assembly Boston

May 2018 to Aug. 2018

General Assembly, Web Development Immersive Program

- Completed 600+ hour, 12 week intensive web development immersive course
- Developed and deployed full stack projects, individually and in teams in 3-4 days
- Technologies and languages covered include HTML, CSS, Bootstrap, Java Script, Ajax, jQuery, Ember, SQL, MongoDB, SQL, Ruby, Rails, Express, Git and Github

Share 'N' Play

- A full stack web app so that families can share toddler toys with families
- Technologies include HTML, CSS, Bootstrap, Handlebars, JavaScript, jQuery, AJAX, Ruby on Rails and PostgreSQL
- Users can create an account and add their toys to the web app and see other users' toys too. They can request to 'share' other users' toys and then move it over to their toys section

Survey Says!

- Full stack full- web application for creating custom surveys and displaying the results on the dashboard
- Team project that required pair programming and extensive use of git and github to collaborate
- Technologies include HTML, CSS, Bootstrap, Handlebars, JavaScript, jQuery, AJAX, MongoDB, Mongoose, and Express

Daily Foodie

- Full stack web app for users to sign in and upload their recipes along with the instructions and a link to refer to
- Technologies include Bootstrap, HTML, CSS, JQuery, AJAX, Ruby on Rails and PostgreSQL

Tic Tac Toe

- Front end web app for users to log in and play the game
- Technologies include HTML, CSS, jQuery, Bootstrap and AJAX
